

CUSTOM and STOCK MEDALLIC PRODUCTS

As an industry leader in the manufacture of tokens, coins, medals, keytags and commemoratives, HOFFMAN MINT is recognized for the exacting attention to detail that it brings to every project. Carefully trained teams of artisans and technicians have combined ancient skills with modern manufacturing techniques to produce levels of quality that have helped to define current industry standards. In fact, HOFFMAN MINT was commissioned to design and strike the Official Presidential Inaugural Medal, a perfect example of the "Presidential Quality" inherent in each medallion product from HOFFMAN MINT.

With its exquisite deep relief and extraordinary detail, the Official Presidential Inaugural Medal is an outstanding example of the imagery possible in modern die striking.

COMMEMORATIVES

HOFFMAN MINT has produced thousands of custom commemoratives celebrating the people, events, anniversaries and greater achievements of companies and organizations around the world. HOFFMAN MINT can strike your special theme into a perfect presentation for team building or as a special way of saying "thanks" for a job well done.

STOCK MEDALLICS

HOFFMAN MINT offers a large assortment of stock images and die patterns that can be easily and successfully incorporated into your next project. These popular themes and graphics can also be used in combination with your own custom designs to produce the perfect commemorative or promotional items.

Beautifully crafted commemoratives are the perfect keepsake for recognition of outstanding corporate achievement.

HOFFMAN MINT can translate your theme program into beautiful metal artwork.

BEYOND TRADITION

Exceptional detail and consistently beautiful finishes are the trademark of HOFFMAN MINT's bronze die striking and finishing processes.

Working from dies created by our in house team of master engravers, HOFFMAN MINT utilizes state of the art technology to ensure that each piece will be representative of the high relief, precise detail, exquisite finish and high perceived value that is synonymous with all medallion products manufactured by HOFFMAN MINT.

ARTWORK and TIME CAPTURED IN BRONZE.

Dating back to 1684, the calendar medal originally provided a popular alternative to printing on paper. Today's calendar medals from HOFFMAN MINT are proving to be an equally popular way to enjoy both exquisite artwork and to capture the year in bronze. Featuring wildlife images from some of America's finest

artists, these beautifully sculpted and meticulously struck medals are perfect for retail sales or as corporate gifts. Breathtaking in their range of detail, HOFFMAN MINT calendar medals are also available in a fine line of keytags and medallions.

Calendar medals.

FROM A LONG TIME AGO...

The timeless image of the dinosaur has been captured forever in DINO COINS from HOFFMAN MINT. Ten anatomically correct dinosaur figures with informative descriptive text have been reproduced on 1-1/8" brass coins and 1-5/8" antique finished medallions. DINO COINS are available in either retail packaging for museum gift shops, toy stores, and specialty retail outlets, or in promotional packaging to fit any marketing effort.

Dino coins

The Wildlife Collection includes bronze medals, leather keyfobs, keytags and medallions.

FROM THE WILDLIFE COLLECTION

The Sea Otter, Cougar and American Bald Eagle are outstanding examples of wildlife art die struck in bronze. These highly detailed collectibles feature a magnificent sculpted relief with a reverse side of scenic art and informative text.
